

Heitor França Melegate | Software Engineer

heitorfm.dev@gmail.com | (19) 97146-3777 | linkedin.com/in/heitor-melegate | github.com/HeitorFM2 |

heitor-melegate.portfolio

Technical Skills

- C# (.NET) | Java | Python | Golang | SQL
- Clean Code | SOLID | Clean Architecture | CQRS | OWASP
- AWS | Azure | RabbitMQ | Kubernetes | CI/CD | Docker
- Scrum | Kanban | QA | BDD
- Technical English for documentation reading and basic communication | Native Portuguese

Specialization

- Backend development with C#/.NET, SQL, Azure/AWS and Software Architecture

Professional Summary

Backend Software Engineer with experience in API development, scalable architecture and systems integration using .NET, SQL, AWS/Azure and practices such as Clean Architecture, automated testing and CI/CD.

Experience

Software Engineer

Confience (acquired Labsoft Tecnologia LTDA) | Feb/2024 – Present.

- ♦ Labsoft was acquired by Confience in 06/2025. Since then, I have continued working with the same technical team, focusing on backend development and the evolution of internal platforms.
- Developed and maintained scalable backend applications using .NET, reducing production issues through automated testing and technical reviews
- Integration with internal and external APIs
- Participated in the architecture and development of the new Labsoft Portal
- Built a functional prototype for the myLIMS system
- Collaborated with both technical and non-technical stakeholders
- Provided direct support in architectural decisions and engineering best practices
- Implemented automated tests (unit and integration tests)
- Applied QA, BDD and continuous quality assurance practices
- Structured test scenarios to improve system coverage and reliability
- Contributed to code quality improvements, technical reviews and regression prevention

Backend Programmer

QYON sistemas inteligentes. | 11/2023 - 02/2024.

- Experience in organized, performant and scalable applications;
- I collaborated with various stakeholders to conceive, design, develop, test and release software;
- Demonstrated proficiency in various data structures and algorithms.

- Generate data storage solutions using AWS;
- Building and integrating with own and external APIs;

Trainee / Apprentice in the Technology Field

QYON *sistemas inteligentes*. | 03/2022 - 10/2023.

- I collaborated with various stakeholders to conceive, design, develop, test and release software;
- Demonstrated proficiency in various data structures and algorithms.

Trainee / Apprentice in the Technology Field

8Sys *desenvolvimento de sistemas LTDA*. | 03/2022 - 02/2023.

- I collaborated with various stakeholders to conceive, design, develop, test and release software;
- Drove continuous improvement in software quality, customer experience and product maintenance;

Education

Technologist in Systems Analysis and Development | **Fatec Americana University** | Completed in Dec/2024.

Systems Development Technician | **SENAI 'Alvares' Romi** | Completed in Dec/2021.

Extra-curricular courses

DevOps: Building and Managing Containers with Docker | **Alura** | Completed

Docker: Creating and Managing Containers | **Alura** | Completed

Kubernetes: Pods, Services and ConfigMaps | **Alura** | Completed

Quality Assurance: Test Planning and Bug Management | **Alura** | Completed

Go: The Complete Developer's Guide (Golang) | **Udemy** | Completed

Learn JAVA Programming - Beginner to Master | **Udemy** | Completed

The Complete Python Bootcamp From Zero to Hero | **Udemy** | Completed

Spring Boot 3 & Spring 6 | **Udemy** | Completed

The Complete SQL Bootcamp From Zero to Hero | **Udemy** | Completed

FastAPI - Modern and Asynchronous APIs with Python | **Udemy** | Completed
